Weekly Activities and Status Report for DD/ICS--18 January 1984

CIPC Organizational Activities

- As you know, we have added DOE to the CIPC rolls.

- On 13 January, [redacted] visited the Department of Energy to brief Mr. Charles Boykin on the CIPC mission and functions. The essentials of this brief were repeated on 16 January for Mr. Don Perlman, Special Assistant to Secretary Hodel. Mr. Perlman's duties include oversight of DOE's intelligence efforts. Mr. Perlman will probably arrange for a briefing of the Secretary at a later date.

- DABM's interim report: we are working with [redacted] in an effort to finalize this report. Hopefully, this will be accomplished within the next day or so.

- We have finished our final review of the Cruise Missile Report. It will be forwarded to the print shop this week for final publication.

- The Narcotics Report is at the print shop--final draft copy being printed. If all goes well it will be forwarded to the DCI the end of this week or early next week for his review. The report is scheduled for NFIC on 31 January.

Evaluation of Collection Strategies: [redacted] 25X1

- Preparation of a concept paper to stimulate thinking on the best way to execute this newly assigned responsibility was the central focus of this week's efforts. Balance is being sought in achieving a more structured and explicit approach than what has customarily been used that captures essential principles but is not so complex as to be incapable of execution on a routine basis. It is recognized that previous ICS attempts to introduce more rigorous analytic techiques to the resource allocation decision process have not been successful.

Terrorism Review: [redacted] 25X1

- On 13 January, [redacted] arranged a demonstration of the DCI Terrorism Analyst Net for 11 prospective subscriber agencies. All participants were pleased with the net's performance. All indicated preference to join.
